## HOUSE CONCURRENT RESOLUTION

---

A CONCURRENT RESOLUTION urging Congress to act on the Climate Security Act.

*Whereas, For more than two decades, scientists have been warning of an immediate need to reduce pollution and slow down the "greenhouse" effect on our environment;*

*Whereas, The Intergovernmental Panel on Climate Change (IPCC) concluded "that the balance of evidence suggests a discernible human influence on global climate";*

*Whereas, The Climate Security Act is designed to reduce pollution and slow the greenhouse effect by creating specific emission reductions;*

*Whereas, The generation and use of renewable energy resources will improve air quality and water quality, reduce the impact of energy production on finite water resources, and improve public health and other aspects of the environment;*

*Whereas, Meaningful legislation could help end our country's addiction to dirty, expensive fuels and create long-lasting jobs in clean technologies; and*

*Whereas, In order to survive and ensure that the beauties of nature are available for future generations, we must work toward passing meaningful legislation that deals directly with the climate crisis to create a more sustainable energy future: Therefore,*

*Be it resolved by the House of Representatives  
of the General Assembly of the State of Indiana,  
the Senate concurring:*

- 1       SECTION 1. That the Indiana General Assembly strongly urges the
- 2       Congress of the United States to act on the Climate Security Act in a
- 3       timely fashion.
- 4       SECTION 2. That the Principal Clerk of the House of
- 5       Representatives transmit a copy of this resolution to the members of the
- 6       Indiana Congressional delegation.
